

To Whom It May Concern,

This reference letter has been prepared to share the contributions and achievements of Mr. Cihad Cengiz during his tenure as a Software Engineer at our company.

Mr. Cihad Cengiz worked at our company between December 2022 and July 2025, during which he played an active role in every phase of the software development lifecycle. He was involved in the analysis, design, development, and testing of web and mobile-based projects, successfully carrying out backend development tasks. With his deep technical knowledge and hands-on experience in modern technologies such as JavaScript, Node.js, Next.js, NoSQL and GraphQL, he provided valuable contributions to our projects.

He undertook the maintenance and improvement of existing systems and played an active role in the integration of new features. He effectively utilized version control systems throughout the software development process and contributed to testing phases, thereby enhancing software quality. Throughout these processes, he collaborated closely with the software team and prepared technical documentation when needed.

Mr. Cihad Cengiz made significant contributions to our company through his technical expertise, growth-oriented mindset, and project-focused approach. He has proven himself to be a responsible, detail-oriented, and solution-focused team member who does not shy away from taking initiative during software development processes.

His collaborative attitude and willingness to continuously learn in technical areas have made him stand out. In particular, his proficiency in modern web technologies enabled him to play an active role in ensuring the timely and satisfactory delivery of software projects.

I believe Mr. Cihad Cengiz's competencies in software development and his professional discipline will be a valuable asset to any organization with a technological infrastructure. I sincerely recommend him and would be happy to provide further information if needed.

Sincerely,

Şahin NAZLI
Director of Software & Information Systems
